Tips to Survive a Job You Hate

Author : ecxmlrpc

Date : April 19, 2012

Survival skills for the job you dont like. This article is about the skills and methods we can try to come out of the negative feelings about the job we are stuck in at present. Some of the methods are: *Prepare a list of things which you dont like about the job. *Write down the things which you dont like about your boss. *List of positive things that you feel about your job. *Think about how to increase your contribution to get a good feedback from your boss. *Try to sort out the problems in the list you made.
