Millions of Indian students who complete their graduation every year will apply for key positions in reputed organizations. An effective Resume is the first step to meeting a prospective employer. An employer receives almost 100 - 200 resumes in response to a job posting, and only the resume that catches their eye will get a chance to get to the interview round and hence the resume has to stand out from the crowd.Resumes and Curriculum Vitae both have similar purposes which provide key information showing you as the ideal candidate.
